CORE STRENGTHS

- Territory Development
- Consultative Selling
- Clinical Education
- Strategic Account Growth
- Referral Network Development
- CRM & Pipeline Management

WHAT I BRING

- + A repeatable approach to opening and developing low-awareness healthcare markets.
- + The ability to translate clinical value into clear, credible stakeholder conversations.
- + Disciplined account execution grounded in trust, follow-through, and measurable growth.

BRYAN MOODY JR.

Achievements & Awards Summary

Medical Device / Specialty Healthcare Sales | Brooklyn & NYC Territory Development

Selected awards, rankings, and measurable wins organized by the year each role began.

2025

Territory Sales Manager | Addovis Therapeutics

- Built and developed a high-volume Brooklyn neurology territory in a low-awareness specialty market.
- Penetrated 40+ neurology and headache-focused practices and converted inactive accounts into active product opportunities.
- Educated 150+ healthcare stakeholders across physicians, APPs, office staff, and specialty-pharmacy workflow teams.
- Executed 1,000+ provider-facing touchpoints through office visits, staff education, calls, emails, and CRM-tracked follow-up.

2023

Medical Device Sales Executive | AposHealth

- Ranked #8 of 82 representatives nationally in 2024, placing in the top 10% of the national sales force. Achieved 143% of 2024 annual quota and built AposHealth's Brooklyn territory zero-to-one.
- Generated \$5.81M in total Brooklyn territory treatment value across 2023-2024.
- Built a 75-account clinical referral network, driving a 54% year-over-year increase in referral velocity.
- Secured and scaled the FDNY EMS strategic account across 2023-2024: 375 patient enrollments and \$1.68M in total treatment value.

2019

Business Development Representative | Quatela Chimeri, PLLC

- Recognized internally as a Top Performer for production, referral-source development, and new retained-client growth.
- Generated \$450,000+ in new retained client revenue across healthcare providers, insurance stakeholders, and professional-liability accounts.
- Built and managed an 85+ partner referral network across physicians, medical practices, attorneys, and healthcare-adjacent partners.
- Increased qualified consultations by 28% through structured follow-up cadences and referral-source development.

2016

Volunteer Emergency Medical Technician | Massapequa Fire and Rescue

- Earned and maintained EMT certification while providing emergency medical care in high-pressure field environments.
- Built a clinical foundation in patient care, triage, protocols, medical terminology, and trauma-related care pathways.

ATHLETIC AWARDS & COMPETITIVE ACHIEVEMENTS

- Junior elite national gold medalist in the all-around championships at the U.S. Classic for men's artistic gymnastics.
- Farmingdale State College pole-vault record holder at 15'4".
- 2021 state champion in pole vault.

LOCAL 2507

Uniformed EMTs, Paramedics & Fire Inspectors | New York City Fire Department

November 12, 2024

Paul Miano

Assistant Chief, EMS Operations

New York City Fire Department

Dear Mr. Miano,

On behalf of Local 2507 and the FDNY EMS workforce, I am writing to express our support for further consideration of AposHealth as a musculoskeletal health solution for our members.

Our EMTs, paramedics, and EMS professionals perform physically demanding work daily. The repetitive lifting, stair carries, patient transfers, prolonged standing, and high-call-volume environment place a significant burden on the knees, hips, and lower back. For many members, chronic musculoskeletal pain is not merely an inconvenience; it adversely affects their quality of life, job performance, overtime availability, and long-term health.

AposHealth's mission aligns directly with a need we observe across our workforce: assisting employees in managing chronic knee, hip, and lower back pain, particularly knee osteoarthritis, through a non-invasive, clinically guided approach. By addressing the underlying biomechanical symptoms that contribute to pain and functional limitations, AposHealth presents a practical option for members seeking to maintain an active lifestyle, remain productive, and avoid more costly interventions when appropriate.

From a departmental perspective, this type of targeted musculoskeletal health solution holds the potential to provide substantial value. Chronic joint and back pain often leads employees down a costly path of repeated imaging, injections, specialist visits, physical therapy, medications, and, in some instances, surgical intervention. A program that mitigates pain, enhances mobility, and supports conservative care may contribute to reduced overall healthcare utilization while improving members' day-to-day experiences.

Furthermore, there is a productivity impact that should not be overlooked. When members experience pain, the department is adversely affected through missed workdays, limited-duty assignments, reduced performance during shifts, and increased strain on the rest of the workforce. A solution that facilitates improved mobility and function with reduced pain can support attendance, morale, and operational readiness.

Equally important, offering a benefit like this conveys a clear message to our members: their health, longevity, and quality of life are of utmost importance. Our members diligently serve New York City under challenging circumstances. Providing access to innovative, non-invasive solutions for chronic pain would be a significant step toward ensuring their well-being in return.

For these reasons, Local 2507 firmly believes that AposHealth is a valuable benefit that should be seriously considered for FDNY EMS members. We would be honored to participate in further discussions regarding its implementation, accessibility, and potential for integration into the workforce in a manner that benefits both our members and the department.

Respectfully,

Oren Barzilay

President

Local 2507

April 13, 2025

To Whom It May Concern,

It is my pleasure to recommend Bryan Moody, whom I had the privilege of managing as a Sales Executive at AposHealth from February 2023 through March 2025. Although a company-wide restructuring ultimately concluded Bryan's tenure, his impact on our team and on the Brooklyn territory was significant.

When we asked Bryan to build awareness and drive adoption of AposTherapy across Brooklyn, he embraced a difficult challenge. Brooklyn is a fast-paced, highly competitive market, yet Bryan paired disciplined territory strategy with persistent execution. He created a foothold where none existed, developed meaningful provider relationships, and helped drive adoption of our therapy throughout the market.

What distinguished Bryan was not only his ability to deliver results, but the way he approached the work. He brought positivity, accountability, and a genuine commitment to patients, clinicians, and teammates. He is self-directed, credible in front of stakeholders, and skilled at building trust. Just as important, he understands how to communicate both the clinical and commercial value of a healthcare solution.

I am confident Bryan will bring the same resilience, professionalism, and collaborative leadership to his next organization. He has my highest recommendation. Any organization seeking a high-performing healthcare sales professional who can establish a territory, build lasting clinical partnerships, and contribute positively to the culture would be well served to hire him.

Please feel free to contact me should you wish to discuss Bryan's qualifications further.

Sincerely,

Yan Elizarov

Former Senior Vice President of Sales, AposHealth

April 10th, 2023

To Whom It May Concern,

I am delighted to recommend Bryan Moody, who served as a Business Development Representative at Quatela Chimeri, PLLC.

Throughout his tenure with our firm, Bryan consistently demonstrated the essential qualities required for success in a client-facing business development role. He exuded professionalism, initiative, and exceptional relationship-building skills. Bryan carried himself with maturity, effectively communicated with a diverse range of individuals, and comprehended the significance of earning trust with providers in an environment where credibility and discretion are paramount.

Bryan's reliability, self-direction, and willingness to invest the necessary effort in building relationships and creating opportunities were truly commendable. He maintained a positive attitude, took full ownership for his responsibilities, and represented our firm in a manner that reflected our organization's highest standards. His ability to engage others, actively listen, and follow through made him an invaluable asset to our team.

Beyond his work ethic, Bryan is personable, driven, and highly receptive to feedback. He adapts swiftly to new challenges and approaches them with a mindset of continuous improvement and a desire to contribute at a high level.

I wholeheartedly recommend Bryan for any opportunity that values strong communication, relationship management, professionalism, and initiative.

I am confident that he will bring the same level of commitment and character to his future endeavors.

Sincerely,

Christopher J. Chimeri, Esq.

Quatela | Chimeri, PLLC
